Connections

Installing the Wall Mount Bracket

- Installation should only be done by a certified professional.
- When setting the display down to install the wall mount, place it face down on a flat and stable surface covered by a protective sheet or cloth and a table cushion as shown in the illustration provided. **DO NOT** place the display on an uncovered surface.
- The maximum wall mount load capacity is 150kg (330lbs).

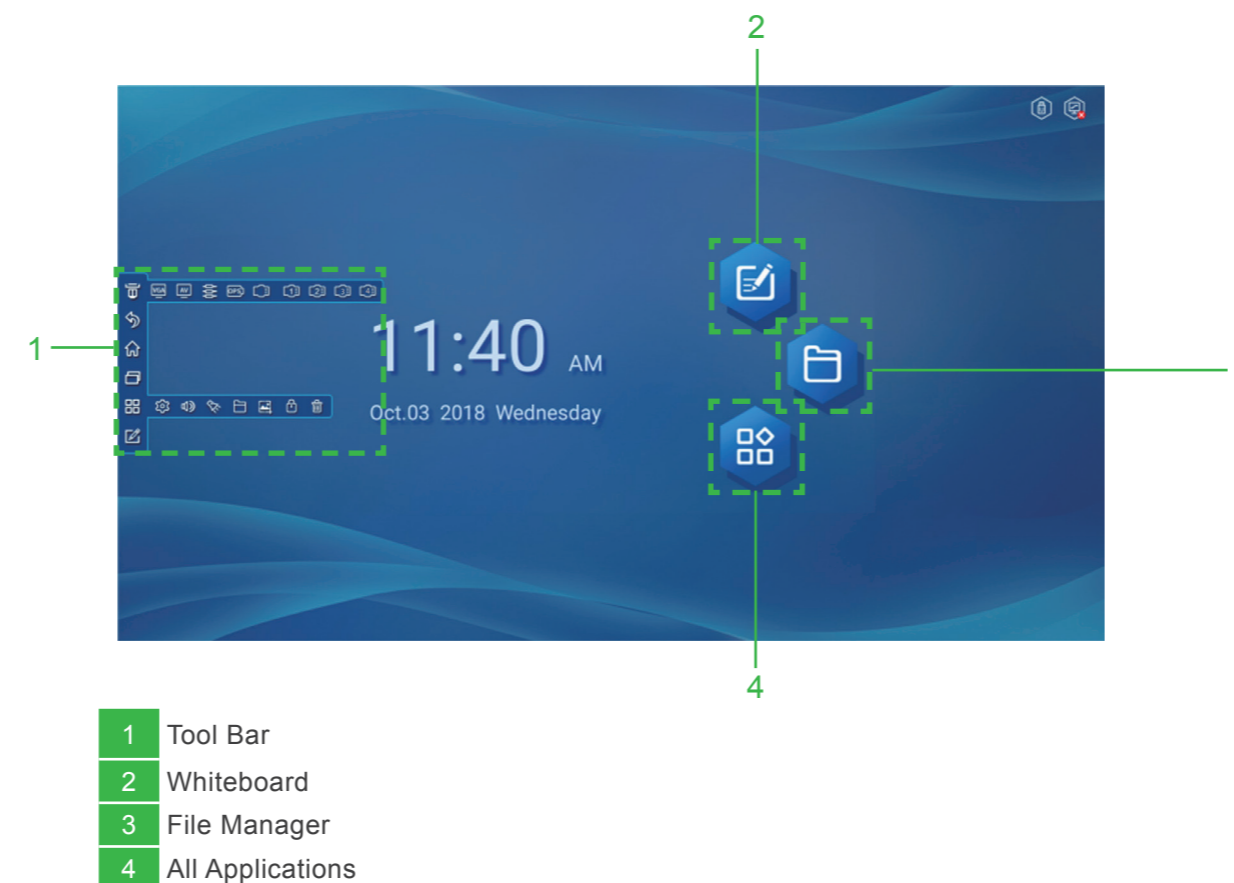

Getting Started

Plug the power cable into the display and a power source.

Turn the power switch on and then press the power button on the display or remote control.
